# ASSERTS MAGAZINE PUBLICITY DOOMED

Chicago Tribune General Manager Criticizes Methods of National Advertising.

Chicago, October 22.—The doom of the American magazine as an advertising medium was sounded by James Keeley, general manager of the Chicago Tribune, in a speech today before the Illinois Daily Newspaper association in convention here. Mr. Keeley spoke on "Truthfulness and Candor in the Matter of Circulation." He urged that fair and honest statements will eventually solve the circulation situation and, believes the new law requiring seminannual statements by the government will bring about a new era in this field of newspaper work.

He declared that the speedy decline of magazine adverti sing, especially in the line of nation-wide advertising, is certain because the magazine does not tell a reader where the advertised product may be found in the home town. He asserted that is the principal thing a reader wants to know.

Detroit Free Press

# Mr. Keeley Mistaken

City Directories will supply the missing Link to overcome this fault.

Instead of "Write for name of local dealer," national advertisers will soon be saving:

"See City Directory for name of local dealer."

Our service will protect your trademark locally in every city where you have a dealer, linking the name and address of the dealer to your product so everyone can find it readily.

Furthermore, this service will be nationally advertised, thus emphasizing the new era in City Directory publishing.

The prices for this "advertising insurance" will be very low.

# Who Sells It?

How the City Directory is increasing the service it renders patrons by telling them where they can buy nationally advertised goods.

Have you, reader, had experience like that illustrated above with nationally advertised goods? Have you failed to receive a reply to your letter inquiring the name of the local dealer until long after you had lost the interest awakened by a well written advertisement, or had purchased some other similar goods at a convenient store?

#### Substitution

Or have you found trouble in getting nationally advertised goods when you asked for them? Perhaps a plausible salesman has said to you sometime, "No, we haven't that brand, but we have another just as good which sells for less money—because the manufacturers save the expense of advertising?"

#### Who Sells It Locally?

How many times on reading an advertisement in the Saturday Evening Post, or some other publication, have you said to yourself, "I wonder who sells that here?" If such things have happened to you, you will quickly appreciate this new section of the City Directory—which connects up nationally advertised trademark goods with their local dealers, so you can find them readily.

Any time you see fit—perhaps months after the advertisement which sold you on investigating the goods has passed away—you can locate the dealer.

#### Who Sells It?-Continued

You do not have to look in the advertising pages of the directory to find the dealers' names. Simply look up the trademark name of the article or goods—like "Ostermoor" or "Holeproof," as you would any other friend, in the alphabetical portion of the directory.

#### Thoroughly Indexed

Or if you do not remember the trademark name, turn to the classified headings. There under "Mattresses" you will find "Ostermoor," and the name of the dealer. Under "Hosiery" you will find "Holeproof," and so on, covering many of the best advertised goods in the country.

#### "There's the Trademark"

Furthermore, you will be referred to the manufacturers' advertisement where you will find his familiar trademark. You will say to yourself,—"Yes, that's the trademark." Woe, then, to the dealer who tries to substitute something else "Just as good."

This new section of the City Directory will make its appearance in 1914 directories all over the country. Many of the most progressive national advertisers are subscribing to a syndicate service which enables them to protect their trademark locally in all the cities of the country, and at a very modest cost.

#### How It Will Spread

Of course, more national advertisers will subscribe as the plan becomes known, and in the course of a year or so there will hardly be a nationally advertised article that will not be listed in the City Directory, with the name of the local dealer or dealers.

If you think our plan is a good one, and have trouble finding the dealers who sell any nationally advertised goods you want to buy, let us know. We will try to secure the information for you and incorporate it in our next edition as well.

Tell the merchants from whom you buy nationally advertised goods that you found out they were the dealers through the City Directory.

# YALE Two-Speed Motorcycle

THE Two-Speed Transmission that is regularly built into all the new models of the Yale motorcycle is the biggest step forward in the history of motorcycle construction. It means greater ability under all conditions—greater ease in overcoming the difficulties of bad roads, bad weather, and steep hills; victory over obstacles that always before meant defeat—and a vastly widened field of usefulness for the machine.

You can't appreciate what areal, up-to-date motorcycle can do until you 202 the new Two-Speed Yale in action. It sets a new standard for motorcycles to be judged by, for it is so far superior to the best of yesterday's type of machine that there is no comparison. A demonstration will convince. Call at my store, or write for illustrated literature telling about the new Two-Speed Yale—right now.

# Introductory

In issuing to the public the latest edition of the Ann Arbor, Ypsilanti and Washtenaw County Directory, the publishers have every confidence that the work will be appreciated more than ever before, no effort having been spared that experience and painstaking care could contribute to make it complete and reliable. All those features which have commended themselves in directory work in the past have been retained, and new ones have been added, and the work is equal in every respect to the largest metropolitan directories, possessing in addition some features peculiarly adapted to this community. To those who have aided in its successful production, either by their patronage or by furnishing necessary data, our cordial acknowledgments are returned.

This directory is the first to contain the "Trademark Insurance Section," which tells would-be purchasers who are the local dealers for various nationally-advertised goods. The benefit to the local merchants is obvious.

The work contains 962 pages. Of these the first 107 pages are devoted to useful information relating to the city of Ann Arbor and county in general, embracing a street and avenue guide and directory of householders and of those who are engaged in business, arranged by streets and numbers; every department of city and county government; full information concerning banks, cemeteries, churches, hospitals, incorporated companies, libraries, periodicals, parks, the postoffice, public buildings, railroads, public and private schools, etc.

This is followed (pages 109-448) by an alphabetically arranged directory of business firms and private citizens in the city of Ann Arbor. A similar arrangement (pages 449-617) follows for Ypsilanti. Succeeding this (pages 618-712) are alphabetically arranged directories of Bridgewater, Chelsea, Dexter, Dixboro, Manchester, Milan, Pittsfield, Salem, Saline, Urania, Whitmore Lake,

Whittaker, Willis and York.

A Classified Business Directory of all persons doing business in the county will be found on pages 713 to 840. This department shows the various manufacturing, mercantile and professional occupations in alphabetical order by towns and constitutes an epitome of the business interests of the county. The final pages are devoted to a list giving name, section, number of acres, assessed valuation, name of township and postoffice addresses of all farmers in Washtenaw county.

The Directory is placed by us in the Libraries of the various directory offices throughout the United States and Canada, where it serves as a lasting advertisement for Washtenaw county and its business interests.

# Where does your Advertising

When your advertising matter goes out hit or miss to any old sort of a list of names, there's bound to be tremendous waste.

Polk's lists are different—because they are based on original data—the data that goes into Polk's 400 City, County, State and National Directories. Directory publishing is our principal business.

98% delivery is guaranteed on our lists—can you ask for any better proof of efficiency?

Form letters—well executed—command attention. We do addressing, multi-type-writing, filling in, folding, enclosing and mailing.

### HOW DIRECTORY LIBRARIES ARE USED

#### He Wanted to Buy a Home

"Who sells ready-cut houses?" said a man to us the other day. "There is nobody listed under that heading in the Detroit City Directory, but I know there is some concern out in the State which sells them."

Reference to the Michigan State Gazetteer (State Business Directory) soon told him that the concern he wished was the North American Construction Company, of Bay City, Mich. "I will write and order what I want at once." was his parting remark.

Where one instance of this sort comes to our attention, the same things are happening over and over again wherever a City Directory is to be found.

If you will trace back new customers to find out how they found you, City Directory classified lists will receive their share of the credit.

#### A \$50,000.00 Order

A traveling man from St. Louis called on a wholesale dry goods house in St. Paul, to sell salvage goods. They did not deal in that class of goods.

Later the firm dissolved. One partner decided to engage in that line of trade and wanted to buy a complete stock, amounting to about \$50,000.00.

He called at our office and examined the St. Louis Directory to find the name of the house the agent represented. The classification "Salvage Goods" did not show it.

We, being more familiar with the classifications in a Directory, found it under "Bankrupt Stocks," much to the delight of the jobber, and a tremendous order was placed with the salvage house.

The classified section of the City Directory is the greatest buyers' guide on earth. Any one classification may secure the largest order and the best customer, any or every day in the year, and its omission may lose a large order at any time.

Every day, all over the country, thousands of people are consulting Polk's Directory Libraries. We offer you the free use of our directories for single reference.

Many Directories of various cities are bought by progressive concerns, who desire up-to-date mailing lists, classified by trades and otherwise.

Ask for a free copy of our "Directory of Directories," or for our "List of Mailing Lists."

#### R. L. POLK & CO.

Publishers of over 400 Directories

Home Office - DETROIT, MICH.

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?
